

## PRIVACY POLICY

Special Olympics Kansas (SOKS) values and respects an individual's right to keep certain Personal Information private. Likewise, SOKS values the need to collect and use Personal Information which will enable the organization to effectively deliver services to individuals with intellectual disabilities, their families, donors and volunteers. The Privacy Policy applies to activities of SOKS and additionally to persons visiting SOKS web sites, signing up for SOKS publications and mailings, or entering into transactions with SOKS and covers the collections, use, storage and disclosure of information and data as described in the Privacy Policy. SOKS does not sell, share, rent or trade donor lists.

### SOKS Collection of Personal Information

SOKS will collect Personal Information on an individual only if the individual provides the information to SOKS. SOKS also may collect information about a person who has been referred to the website to send them emails regarding SOKS programs or efforts. If a person donates to SOKS, then SOKS may collect sensitive Personal Information such as the donor's credit card number, card type and expiration date and keep a record of the financial transaction.

SOKS may collect Demographic Information it obtains from individuals and third parties for fundraising purposes and to notify persons of SOKS programs, events, educational opportunities and upcoming meetings.

SOKS may collect Aggregate and Transactional Information and add to the database every time a person visits the SOKS website.

### Information Security

We are committed to ensuring the privacy of your personal information and have established safeguards to help protect such information. For example, to protect your privacy, Special Olympics Kansas uses passwords to help verify authorized user identity before granting access anywhere your personal information is stored. All online monetary transactions are done on a secure server. This means that information entered on the transaction page is encrypted using SSL (Secure Socket Layer) before transmission. On secure pages, a "closed" lock symbol is displayed in the bottom part of your browser screen and the website address in the address bar at the top of the browser screen starts with an "https" instead of an "http." Though we strive to ensure the security of your information on our systems, no security measures are perfect or impenetrable and data transmission over the internet cannot be guaranteed to be 100% secure.
