Coach to Athlete Ratio Policy

All Special Olympics athletes attending any SOKS competition, training, clinic or any other activity sponsored by SOKS or any Regional program, must be accompanied by a minimum coach to athlete ratio of 1:4 and a maximum coach to athlete ratio of 1:8. An exception to the minimum/maximum coach to athlete ratio must be requested in writing from SOKS prior to the sponsored activity. The written exception must include the rationale behind such a request.
